A COMPLETE LINE OF DISPLAY  
CASES AND STORE FURNITURE

WILMARTH SHOW CASE CO.

JEFFERSON AVENUE AND COTTAGE GROVE STREET  
GRAND RAPIDS, MICHIGAN, U. S. A.

## FOREWORD

Here is Furniture that is dependable.

Here is equipment that appeals to progressive merchants.

Here are store fixtures that embody the three prime elements of most importance to the store owner.

These elements are GOOD CONSTRUCTION, DURABILITY and FINE APPEARANCE.

Good construction and durability are vital to the proprietor.

Fine appearance is vital in its appeal to the customer.

Every case in this catalogue embodies ALL of these elements.

If you have a store furnishing problem, no matter what it is, we can solve it.

Repeated orders from satisfied customers prove the worth of the WILMARTH LINE.

We are ready to serve you in the WILMARTH WAY.

WILMARTH SHOW CASE CO.

Grand Rapids, Michigan.

DATED:

November 12, 1901  
April 18, 1905  
December 25, 1906  
Other patents pending.

## TERMS AND CONDITIONS

All prices are list prices and are subject to a trade discount.

Our terms are thirty days net from date of invoice.

All checks, drafts, money orders, etc., sent in payment of invoices, must be made payable to the WILMARTH SHOW CASE COMPANY, Grand Rapids, Michigan.

Interest at 6% is charged on all accounts not paid when due.

No order is subject to cancellation, without our consent.

Persons or firms with no commercial rating must send satisfactory references with their order, or, in lieu of this, at least 25% of the total amount in cash with the order.

We assume no responsibility for delay in the completion of an order, caused by strikes, fires, or other conditions beyond our control.

Telegraph or telephone orders must be confirmed by mail. If they are not, we assume no responsibility if they are filled incorrectly.

We prefer to receive definite shipping instructions with all orders. However, if none are specified, we will route the shipment to the best of our ability.

## WILMARTH WOOD FRAME DISPLAY CASES

The wood frame display cases illustrated and described on the following pages are all built with our narrow wood frame, knocked down construction. This construction is more modern than any other.

The narrow wood frame gives the largest possible glass display surface. It adds to the selling value of the case because it displays merchandise to better advantage than a wide wood frame case.

The knocked down feature which we originated twenty years ago, and which is now so generally used, enables us to ship cases for about one-third the usual freight charges on ordinary set up cases. Our customers experience no difficulty in setting up WILMARTH cases. Complete setting up instructions accompany each case. The only tool necessary for the work is a screw driver.

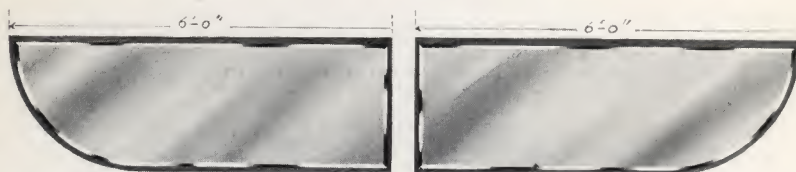

WILMARTH wood frame display cases are built with our new tightening and strengthening device, known as the WILMARTH "WEDGE-LOCK" (patent applied for). This WEDGE-LOCK makes the cases absolutely rigid when erected ready for use. It distinguishes WILMARTH wood frame cases from all others.

The prices on the following pages are for cases built of oak or birch. However, we can build any wood frame case of mahogany and are prepared to quote prices for this work on application.

Quality of material, beauty of design, and Grand Rapids workmanship, are all combined to make WILMARTH display cases the best value on the market.

LEFT HAND OVAL

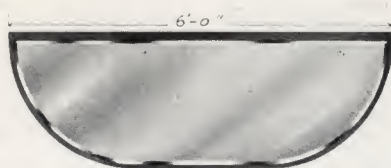

RIGHT HAND OVAL

## PLAN "A"

This plan shows the exact shape of the top of any floor display case having either one right hand or one left hand oval end. Always specify whether oval end is right hand or left hand as you face case. The length of a case is found by measuring as shown in plan.

Add the following prices to the regular prices of the following cases for one oval end.

	One D.S.A Oval	One Plate Oval
Nos. 763, 764, 765 and 767 style cases and counters with 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	\$22.50	\$27.20
With 8-inch Georgia Creole or White Italian marble base.....	28.20	32.90
With 8-inch Verde Antique marble base.....	50.70	55.40
All other wood frame cases or counters listed as being built with oval ends.....	11.30	16.90
Nos. 291, 298, 230 and 294 style crystal cases and counters .....		16.90
No. 216 case with 24-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		39.40
With 24-inch Georgia Creole or White Italian marble base.....		45.00
With 24-inch Verde Antique marble base.....		67.50
No. 206 case with 8-inch Verde Antique and 16-inch White Italian marble base.....		95.50
All other crystal cases or counters listed as being built with oval end and having 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		22.50
With 8-inch Georgia Creole or White Italian marble base.....		28.20
With 8-inch Verde Antique marble base.....		50.70

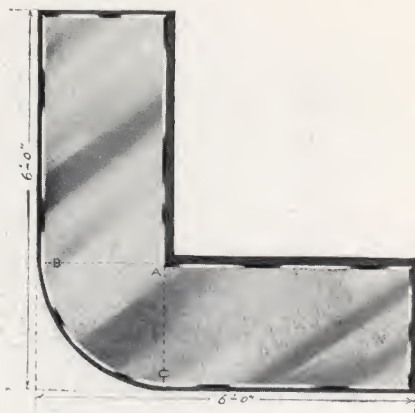

PLAN "B"

This plan shows the exact shape of the top of any floor display case having two oval ends. The length of a case is found by measuring as shown on the plan.

Add the following prices to the regular prices of the following cases for two oval ends.

	Two D.S.A Ovals	Two Plate Ovals
Nos. 763, 764, 765 and 767 style cases and counters with 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	\$45.00	\$56.30
With 8-inch Georgia Creole or White Italian marble base.....	56.40	67.70
With 8-inch Verde Antique marble base.....	101.30	112.60
All other wood frame cases or counters listed as being built with oval ends.....	22.50	33.80
Nos. 291, 298, 230 and 294 style crystal cases and counters .....		33.80
No. 216 case with 24-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		78.80
With 24-inch Georgia Creole or White Italian marble base.....		90.00
With 24-inch Verde Antique marble base.....		135.00
No. 206 case with 8-inch Verde Antique marble and 16-inch White Italian marble base.....		190.00
All other crystal cases or counters listed as being built with oval ends and having 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		45.00
With 8-inch Georgia Creole or White Italian marble base .....		56.40
With 8-inch Verde Antique marble base.....		101.30

# THE *Wilmarth* LINE

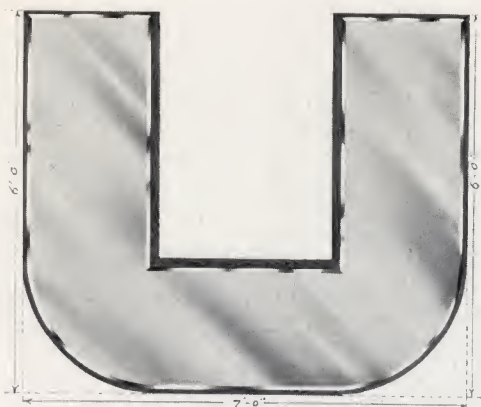

PLAN "C"

This plan shows the exact shape of the top of any "L" shape floor display case having one oval corner. The length of the case is found by measuring as shown on the plan. Always specify the length of each wing of the case as follows: 6 ft. by 6 ft., etc. Also specify whether division in top glass is to be from A to B or from A to C.

Add the following prices to the regular prices of the following cases for one oval corner.

	One D.S.A Oval	One Plate Oval
Nos. 763, 764, 765 and 767 style cases and counters, with 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	\$16.90	\$22.60
With 8-inch Georgia Creole or White Italian marble base.....	22.50	28.20
With 8-inch Verde Antique marble base.....	45.00	50.70
Nos. 463-L and 464-L cases built in oak, measuring 6 ft. by 6 ft.....	No Extra	5.70
All other wood frame cases or counters listed as being built "L" shape with one oval corner.....	5.70	11.30
Nos. 291, 298, 230 and 294 style crystal cases and counters .....		5.70
No. 216 case with 24-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		22.50
With 24-inch Georgia Creole or White Italian marble base .....		28.20
With 24-inch Verde Antique marble base.....		50.70
No. 206 case with 8-inch Verde Antique marble and 16-inch White Italian marble base.....		56.40
All other crystal cases or counters listed as being built "L" shape with one oval corner and having 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	No Extra	
With 8-inch Georgia Creole or White Italian marble base .....		5.70
With 8-inch Verde Antique marble base.....		28.20

PLAN "D"

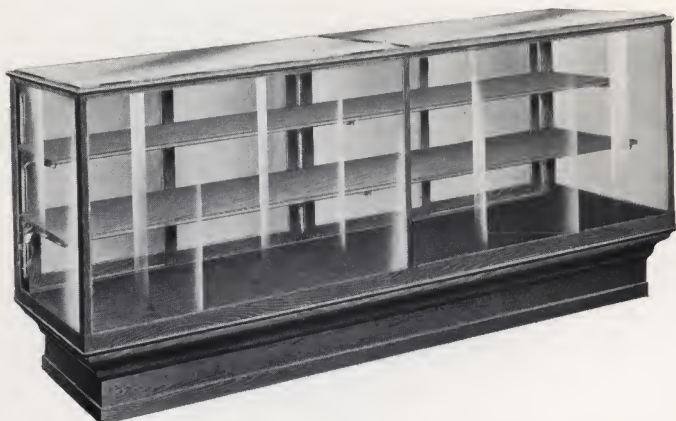

This plan shows the exact shape of the top of any angle shaped floor display case having two oval corners. The length of a case is found by measuring as shown in plan. Always specify the length of the front and of each side section of the case as follows: 6' x 7' x 6'.

Add the following prices to the regular prices of the following cases for two oval corners.

	Two D.S.A Ovals	Two Plate Ovals
Nos. 763, 764, 765 and 767 style cases and counters with 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	\$33.80	\$45.10
With 8-inch Georgia Creole or White Italian marble base.....	45.00	56.30
With 8-inch Verde Antique marble base.....	90.00	101.30
No. 463-A case measuring less than 6 ft. long from front to back.....	No Extra	11.30
All other wood frame cases or counters listed as being built angle shape with two oval ends.....	11.30	22.50
Nos. 291, 298, 230 and 294 style crystal cases and counters.....		11.30
No. 216 case with 24-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....		45.00
With 24-inch Georgia Creole or White Italian marble base.....		56.40
With 24-inch Verde Antique marble base.....		101.30
No. 206 case with 8-inch Verde Antique marble and 16-inch White Italian marble base.....		112.50
All other crystal cases or counters listed as being built angle shape with two oval ends and having 8-inch Tennessee, Rhein, Second Rubio or Verdosa marble base.....	No Extra	
With 8-inch Georgia Creole or White Italian marble base.....		11.30
With 8-inch Verde Antique marble base.....		56.40

**Note**—Wood frame cases have divisions in the top that are not shown in the plans on the foregoing pages.

MADE IN  
**MADE IN GRAND RAPIDS.**

**No. 294 ADJUSTABLE FOOT**

(Sectional View)

Height of Brass Cap,  $2\frac{1}{2}$  inches. Height over all, 6 inches.

**Construction**—Solid glued up wood, with veneered sides.

**Mechanism**—Brass plate in bottom of foot operates on end of a swivel screw post, which penetrates center of foot. Height of foot is adjusted by turning post with a metal lever which has access to holes in post through a slot in back of foot.

**Furnished**—On all cases where adjustable feet are specified.

**No. 34463 SANITARY BASE DISPLAY CASE**

Width, 25 inches. Height, 42 inches.

**Glazing**—Beveled plate glass tops, inlaid on felt. D. S. A glass fronts, ends and doors.

**Doors**—Operate on ball bearing rollers and steel tracks.

**Shelves**—One 10-inch and one 14-inch hardwood shelf.

**Hardware**—Nickel plated adjustable Ideal shelf brackets, and Ideal nickel plated keyhole back strips with one inch adjustment.

## Wilmarth "Crystal" All Plate Glass Display Cases

All of the crystal display cases cataloged on the following pages are built with out patented metal clip construction. This enables us to construct these cases without boring holes through the glass.

As our crystal cases are shipped knocked down, they take a much lower freight rate than if shipped set up. Complete instructions for erecting WILMARTH crystal cases accompany each case. Any one, with no experience, can erect one as satisfactorily as a skilled mechanic.

When erected, WILMARTH crystal display cases are absolutely rigid. They are made so by the use of our new, patented, "SCREW TAPE TENSIONING DEVICE." By turning a screw in the back of a case, the entire case is made perfectly firm and rigid. However, the device is so constructed that it allows for the expansion and contraction of the glass caused by heat and cold.

Careful selection of the material that we use, and attention to the minute details of construction, have gained a most favorable reputation among merchants throughout the country for the WILMARTH CRYSTAL LINE.

## Wilmarth Wall Cases

All wall cases illustrated on the succeeding pages, except the No. 155, are built with our single overlapping pilaster construction. Only one pilaster is used on a case, this being located at the right hand end as you face the case. It projects beyond the case and when two cases are placed together, it laps over and on the next case, and conceals the joint.

This construction make is unnecessary for us to build our cases with finished ends. The ends are made separately. Where the end will be seen it is best to order a paneled end built of the same wood as the case. Where it will be inconspicuous or out of sight, a gum wood paneled end is all that is needed. Two paneled ends or two gum wood ends or one of each are needed to complete one wall case or one continuous line of wall cases.

This method of building wall cases is strictly modern. With the single pilaster construction, new cases can be added to those already in the store, at any time. It is unnecessary to buy any new paneled ends. The old paneled end can be used to complete the new case.

In addition to these advantages, WILMARTH Wall Cases have other features of construction that enhance their value. Sheet steel bottoms protect the interiors of the cases from vermin of all kinds.

All side sliding doors operate on ball bearing rollers and steel tracks.

Brushed brass hardware is used on the exterior of all cases.

Wherever drawers are furnished, they are made of hardwood, have lip fronts, and all parts are dovetailed together.

Although the No. 500 line is priced only in quarter sawed oak and birch, we can build it in figured mahogany and will furnish prices on application. Our veneer work and the grade of figured mahogany that we use, gives our mahogany wall cases an unusual tone of quality.

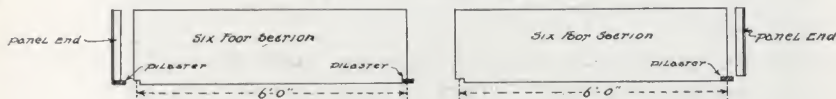

High grade construction is most important in wall cases. Our wall fixtures embody the very highest grade of cabinet workmanship. They cannot be surpassed.

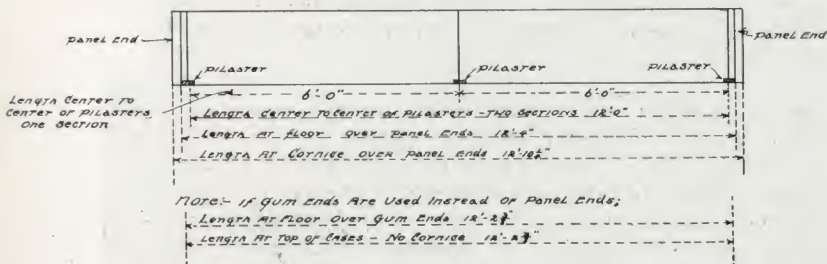

# MADE IN GRAND RAPIDS

Dimensions of ALL SIX FOOT SECTIONS in The "500 Line" (501, 507, 516 Etc.) WITH No. 5 CORNICE

Sections Separated

Sections Joined

## METHOD OF MEASURING WALL CASES WITH SINGLE PILASTER CONSTRUCTION

The illustration shows two 6-foot wall cases, and two paneled ends, all slightly separated.

Each sectional wall case, (in the plan) measures six feet from center to center of the pilasters, or what amounts to the same thing, six feet from the edge of one pilaster to the corresponding edge of the next pilaster.

Every section added to the line will increase the total length six feet. Thus: two sections (as illustrated) measure 12 feet; five sections measure 30 feet, and so on, the measurement being from center to center of the pilasters.

To complete the line of cases in a store, paneled ends or gum paneled ends must be placed at the ends of the line.

Paneled ends are built with a cornice to match the cornice on the cases. Gum ends have no cornice, therefore, paneled ends take more space than gum ends.

For each paneled end add two inches to the floor line length of the cases (measured center to center of pilaster as above.)

The cornice on the paneled end projects  $3\frac{1}{8}$  inches beyond the base of the paneled end.

For each gum end add  $1\frac{1}{8}$  inches to the floor line length of the case, measured center to center of pilaster as above.

## EXAMPLES

(A)	4 six foot sections—4 x 6	24 feet center to center pilaster
	1 panel end	0'—2"
	1 gum end	0'— $1\frac{3}{8}$ "
	Cornice overhang additional	24'— $3\frac{3}{8}$ " on floor line
		$3\frac{1}{8}$ "
		24'— $6\frac{1}{8}$ " on cornice line
(B)	4 six foot sections—4 x 6	24 feet center to center pilaster
	2 panel ends—2 x 2 inches	0'—4"
	Cornice overhang additional—2 x $3\frac{1}{8}$ "	24'—4" on floor line
		0'— $6\frac{1}{4}$ "
		24'— $10\frac{1}{4}$ " on cornice line
(C)	4 six foot sections—4 x 6	24'—0"
	2 gum ends—2 x $1\frac{1}{8}$ inches	0'— $2\frac{3}{8}$ "
	No cornice overhang	24'— $2\frac{3}{8}$ " on floor line
		24'— $2\frac{3}{8}$ " on cornice line

All Paneled Ends	Regular	per pair 50 lbs.

All above weights also apply to our No. 4500 Drug Line which is built to order only.

## FINISH

The finish applied to the WILMARTH line is equal to that used on high grade furniture. All fixtures having varnish finishes are given three coats of varnish. The last two coats are slow drying cabinet varnish. After thoroughly drying, they are hand rubbed.

Wall cases and floor cases when ordered with wall cases, are finished dull. They have that rich gloss seen on well finished pianos, etc. Floor cases, when furnished without wall cases, are highly polished.

When no other finish is specified, we furnish our No. 1 Light Golden Oak finish.

Following is a complete list of our regular finishes. In addition to these, we can furnish any color if a sample is submitted with the order.

1	Light Golden Oak.....	Oak
2	Dark Golden Oak.....	Oak
3	English Oak.....	Oak
4	Dark Mahogany.....	Birch or Mahogany
5	Light Mahogany.....	Birch or Mahogany
6	Natural Mahogany.....	Mahogany
